

Awesome Science Media Presents:

The Heavens Declare

Episode 1: "The Origin of the Universe"

EPISODE SUMMARY

This episode introduces the entire series about origins and the two competing worldviews; the biblical and a naturalistic worldviews. The experts address several scientific challenges to the Big Bang, but also focus on the naturalistic view as a philosophy rather than just data. Finally, the experts focus on the implications and human response to each worldview. A simple Gospel message is shared and viewers are encouraged to choose the Biblical worldview. *DVD comes with a Digital HD version accessed through ChristianCinema.com.*

General DVD Information

Length: 45:03

Release Date: April 2015

Format: NTSC Widescreen (16x9)

Target Audience: Teen-Adult

UPC#: 783583359955

Retail Price: \$16.99

CHAPTERS

1. Asking the Big Questions
2. Growth of Modern Astronomy
3. Disagreement about Origins
4. Worldview Determines Conclusions
5. Choosing Between Two Worldviews
6. Historical & Operational Science
7. The Laws of Nature
8. Sticking Points to Big Bang
9. Are We Made of Stardust?
10. Addressing Key Factors
11. Why Does Everything Exist?
12. What Are We Here?

FEATURED EXPERTS

1. Dr. Danny Faulkner, *Answers in Genesis*
2. Dr. Jason Lisle, *Institute for Creation Research*
3. Dr. Russ Humphreys, *Creation Research Society*
4. Dr. Don DeYoung, *Grace College, CRS*
5. Spike Psarris

DVD BONUS FEATURES

- Behind the Scenes
- Outtake Reel

- Scientists Testimonies
- ASM DVD Previews/Trailers
- Interview with Kyle Justice
 - Vision for the series
 - Contacting the Scientists
 - Planning out the series
 - Shooting the interviews
 - Writing the episodes
 - Shooting Host Segments
 - Editing
 - Graphics
 - Episode Specific
 - Conclusion

Series Summary

In this video series, leading creation science astronomers, physicists, and cosmologists are interviewed and share evidence for a young universe as described in the bible. They will address many of the supposed “evidences” for a universe that is billions of years old and why this theory is simply not valid.

Episodes in Series

Note: all episodes are shot and will be released three at a time

- Episode 1: The Origin of the Universe
- Episode 2: Challenges to the Big Bang
- Episode 3: Solving the Light Travel Dilemma
- Episode 4: Our Solar System
- Episode 5: Our Sun
- Episode 6: Our Moon
- Episode 7: The Law of Gravity
- Episode 8: The Amazing Stars
- Episode 9: The Expanding Universe
- Episode 10: The Wonder of Magnetism
- Episode 11: Asteroids & Comets
- Episode 12: The Space Race
- Episode 13: Searching for Alien Life

Bio of Producer, Kyle Justice

This DVD is produced by Emmy-nominated director, Kyle Justice. His work has appeared on such networks as National Geographic, ESPN, The Outdoor Channel, The Family Channel, and Fox Sports. Kyle started Awesome Science Media in 2010, and has been producing creation science programming since 1996.

Production Company

Awesome Science Media (ASM) is a company dedicated to producing high quality programming which presents a Biblical worldview for understand the world around us. This includes historical and operational science. This programming is geared to all ages and represents documentaries, children’s shows, action adventure shows, and reality programming.

This programming first began with the Awesome Science and Flood Geology DVD series. It is now expanding to other series such as The Heavens Declare, Dino Hunter, and The Top Ten. ASM continues to develop new programming with series like Awesome Science Applied, Awesome Creatures, Ark Animals,

and Ocean Odyssey. We have a worldwide audience and will continue to produce high quality programming which upholds a Biblical worldview to science.

Reviews:

Danika Cooley, Homeschool Mom & Blog Writer

“My 11 and 12 year old boys didn’t move an inch during the 45-50 minute episodes. We really enjoyed these videos, and I know my children will watch them over and over again. I can hardly wait for the next ten episodes! These videos are perfect for middle and high school students interested in studying Creation science from the perspective of physics, cosmology, and astronomy.”
